EDUCATION

The Hong Kong University of Science and Technology	Hong Kong, China
<i>Ph.D. in Accounting</i>	September 2022 – June 2027 (Expected)
The Hong Kong University of Science and Technology	Hong Kong, China
<i>M.Sc. in Accounting (Accounting Analytics Concentration)</i>	September 2021 – May 2022
Bocconi University	Milan, Italy
<i>B.Sc. in Business Administration and Management</i>	September 2018 – July 2021

RESEARCH

RESEARCH INTERESTS

Disclosure and Transparency; Corporate Governance; Political Economy

JOB MARKET PAPER

Privacy Concerns and Private Firms' Voluntary Disclosure: Evidence from Mandatory Personal Financial Disclosures (Solo Authored)

- Presented at the Hong Kong University of Science and Technology.
- Committee: Zhihong Chen (Chair), Qingkai Dong, and Arthur Morris

ACCEPTED PAPER

The Impact of Municipal-Auditor Appointments on Auditors' Private-Sector Audit Engagements (with Zhihong Chen and Qingkai Dong)

Conditionally accepted, *Journal of Accounting Research*

- Presented at the National University of Singapore*, Singapore Management University*, the Hong Kong University of Science and Technology, the 47th EAA Annual Congress, and the 2nd Mediterranean Accounting Conference*.

* Presented by a coauthor.

TEACHING EXPERIENCE

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY

Course Instructor

Principles of Accounting I (Teaching Evaluation: 4.50/5.00) Summer 2025

Teaching Assistant

Principles of Accounting II (Instructor: Steven Cheung) Spring 2025

Principles of Accounting I (Instructor: Steven Cheung) Fall 2024

CONFERENCE ATTENDED

CAPANA Annual Research Conference	2026
CAPANA Doctoral Consortium	2026
Hawaii Accounting Research Doctoral Institute	2026
Accounting and Economics Society Annual Conference	2025
Accounting and Economics Society Summer School	2025
HKUST Accounting Research Symposium	2022, 2023, 2024, 2025
HKUST Business School PhD Student Conference	2023, 2024, 2025

HONORS AND AWARDS

Hong Kong Ph.D. Fellowship Scheme	2022–Present
Beta Gamma Sigma	2023
HKUST RedBird Ph.D. Award	2022
HKUST M.Sc. in Accounting Achievement Scholarship	2022
HKUST M.Sc. in Accounting Admission Scholarship	2021

SKILLS AND PROFESSIONAL ACTIVITIES

Programming	Python, R, SQL, $\text{\LaTeX}$
Memberships	European Accounting Association; Accounting and Economics Society
Languages	English (fluent), Italian (native), Putonghua (intermediate), French (intermediate)
Athletics	HKUST Sports Team: Standard Chartered Hong Kong Marathon (2025); Standard Chartered Hong Kong Half Marathon (2024); University Sports Federation of Hong Kong Cross Country Race (2023)

Privacy Concerns and Private Firms' Voluntary Disclosure: Evidence from Mandatory Personal Financial Disclosures

This paper examines whether making firms' connections to individuals publicly visible affects firms' voluntary disclosure. I exploit Italy's mandatory personal financial disclosure mandate, which requires politicians to disclose managerial appointments in private firms alongside detailed personal financial information. Using a difference-in-differences design that exploits a population threshold determining which municipalities fall under the mandate, I find that firms connected to newly exposed politicians reduce voluntary financial disclosure following the mandate. The reduction occurs along both the extensive and intensive margins, persists beyond the politician's term in office, and is concentrated among firms for which the mandate creates new attribution and where public attention and the potential informational content of firms' financial statements are greater. Additional evidence indicates that the mandate increases media coverage of politicians' personal finances and worsens their electoral outcomes, while the disclosure response does not depend on proxies for rent extraction. Overall, the findings show that mandatory disclosure imposed on individuals can reduce voluntary disclosure by connected firms by increasing the privacy costs of firms' financial reporting.

The Impact of Municipal-Auditor Appointments on Auditors' Private-Sector Audit Engagements

This paper examines how municipal-auditor appointments affect auditors' private-sector audit engagements. Leveraging the lottery-based selection of municipal auditors in Italy, we compare first-time appointees with auditors who have never been appointed. We find that appointed auditors acquire more private clients and expand the geographic reach of their practices, although these clients are not necessarily located closer to the appointing municipalities. These effects are more pronounced for less experienced auditors and in more competitive audit markets. The increase in private clients appears to be primarily driven by greater visibility and networks with other municipal auditors, rather than connections with politicians. We also show that local municipal appointments motivate other auditors to become eligible for future drafts, as evidenced by an increase in new professional registrations. Overall, our findings highlight the role of professional experience gained through municipal-auditor service in shaping labor market outcomes within the auditing profession.
